

# Introducing CARBON HAWK™

— METHANE MITIGATION SOLUTION —

## METHANE EMISSION CAPTURE • 0000b COMPLIANT

CARBON HAWK captures the fugitive methane emissions from the blowdown and compressor rod packings. Archrock estimates that these sources make up roughly 33% of overall methane emissions and 13% of the CO<sub>2</sub>e emissions from an engine-driven compressor package.

MORE™**

### FEATURES INCLUDE:

- No on-site power required
- No rotating equipment
- Skid mounted system
- One CARBON HAWK™ solution is capable of capturing emissions from multiple compressor packages
- Meaningful CO<sub>2</sub>e emissions reduction at a cost less than \$8 per ton of CO<sub>2</sub>e
