14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action. In 2018, Archrock, Inc. (AROC) paid the following cash distributions per share to the common shareholders of record on the specified dates:

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis. AROC has determined that 52.63 percent of each of the cash distributions it paid in 2018 will be classified as non-dividend distributions and treated as a return of capital to the extent of the shareholders' tax basis in AROC shares. Any amount of non-dividend distributions received by a shareholder that is in excess of that shareholder's tax basis in AROC shares will be taxed as a capital gain for U.S. income tax purposes.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates. Based upon calculations using reasonable assumptions, AROC does not believe that it had any accumulated earnings and profits as of the end of 2017 and has estimated that it had current year earnings and profits in 2018 equal to 47.37 percent of the cash distributions paid to shareholders in 2018.
